## CHAMPAGNE INDEX RANKINGS IN FULL

The full restaurant rankings look at champagne variety, the number of vintages available, price range, and how often a restaurant appears first within a Champagne House table. The restaurants in this research

received one or more toques in the Gault&Millau UAE 2024 guide. However, of the 60 restaurants in the guide, there have been two closures in 2024, Celebrities by Mauro Colagreco and Folly, meaning both have been removed.

It is also worth noting that in last year's Index, those restaurants with fewer than five bottles were omitted from the rankings, while the decision was made to include all toque-rated restaurants within this year's Index, resulting in 58 restaurants in total.
